WARRANTY, CLAIMS & INFORMATION

CONSUMER LIFETIME LIMITED WARRANTY

The manufacturer of allen + roth cabinetry warrants to the original residential or commercial purchaser that all allen + roth cabinets and accessories are free from defects in materials and workmanship for the following durations, subject to the limitations set forth below:

Original residential purchaser: An "original residential purchaser" is defined as any person who purchases the cabinetry for personal use in his or her private residence. The duration of this limited warranty begins at the date of delivery to the residence and extends until such time as that residential purchaser no longer resides at the residence. "Residential purchaser" extends to any person who owns and resides in the residence where the cabinetry is installed, for whom the cabinetry is purchased by a contractor, remodeler or other person/entity, except in commercial applications defined below.

Original commercial purchaser: An "original commercial purchaser" is any person or entity, including but not limited to landlords, leasing companies, contractors, remodelers, and private or public businesses, who purchases the cabinetry for installation and use in any location that will be leased or used as a rental unit, or used for any other commercial or industrial application. The duration of this limited warranty is five years from the date of the product delivery to the location.

Proof of purchase is required. This limited warranty is expressly limited to repair or replacement of the cabinetry at the discretion of the manufacturer. This limited warranty does not include labor costs for removal, repairs, installation, or replacement.

This limited warranty does not cover defects, damage, or failure caused by improper handling, cleaning, installation, storage, assembly or disassembly, intentional damage, unauthorized product modifications and repairs, exposure to the elements including extreme humidity, moisture, or temperatures which may result in warping, splitting, or finish failure, accidental misuse, abuse, or negligence. Humidity levels in the home with cabinetry outside the range of 30-50% and temperature levels outside the range of 50-85°F are considered extreme.

Natural woods may vary in texture, color, and wood grain, and exhibit subtle changes as they age. For example, wood joints may develop visible cracking around the joint area and cabinet colors may darken or lighten over time.

Sunlight, smoke, moisture, household cleaners and other environmental conditions may cause materials to vary from their original color and/or to warp, split or crack. These variations are considered to be the nature of the material in relation to its environmental exposure and are not covered under this limited warranty.

THE MANUFACTURER OF ALLEN + ROTH CABINETRY MAKES NO OTHER WARRANTIES OTHER THAN THOSE SET FORTH HEREIN AND ALL OTHER WARRANTIES ARE HEREBY DISCLAIMED.

THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE LENGTH OF THE LIMITED WARRANTY PERIOD.

THE LIMITED WARRANTIES SET FORTH HEREIN ARE LIMITED TO THE FIRST AND ORIGINAL BUYER AND ARE NOT TRANSFERABLE THEREAFTER. PROOF OF PURCHASE IS REQUIRED TO DETERMINE ELIGIBILITY.

EXCEPT AS PROVIDED IN THIS LIMITED WARRANTY AND TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE MANUFACTURER OF ALLEN + ROTH CABINETRY SHALL NOT BE LIABLE FOR INCIDENTAL, DIRECT, INDIRECT, CONSEQUENTIAL, OR SPECIAL DAMAGES TO THE PURCHASER OR TO ANY THIRD PARTY RESULTING FROM ANY BREACH OF WARRANTY OR CONDITION, OR UNDER ANY OTHER LEGAL THEORY, INCLUDING BUT NOT LIMITED TO: LOSS OF USE, LOST PROFITS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF PROPERTY, OR OTHER ECONOMIC LOSSES. THE FOREGOING LIMITATION SHALL NOT APPLY TO PERSONAL INJURY CLAIMS OR ANY STATUTORY LIABILITY FOR INTENTIONAL AND GROSS NEGLIGENT ACTS AND/OR OMISSIONS.

Additional Exclusions, Limitations and Disclaimers

This limited warranty limits the coverage period for the following components that were not manufactured by American Woodmark:

Range hood blowers and components – one year from the date of delivery

SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS AND EXCLUSIONS MAY NOT APPLY TO YOU.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE.

CLAIMS

All claims under this limited warranty must be submitted to the manufacturer and must specify the defects present in the cabinets and accessories. Photos or samples of the product may be required to determine coverage.

After the manufacturer has had an opportunity to inspect the cabinets and/or accessories, it will, at its discretion, ship at no cost to the customer, replacement cabinets and/or parts necessary for repair. Products may require chemical or function testing to determine resolution of a warranty claim. Replacement products are subject to availability and may differ from those originally supplied.

Submit all claims to allen + roth Cabinetry at 561 Shady Elm Road, Winchester, VA 22602, CustomerCare@allenandrothcabinetry.com, OR (855) 768-4292.

Standard Cabinet Specifications

KCMA CERTIFIED

All cabinetry manufactured by American Woodmark Corporation is certified by the Kitchen Cabinet Manufacturers Association (KCMA).

KCMA sets the American National Standards Institute/ KCMA 161.1- 2000 uniform performance and construction standards for kitchen cabinets. The program is referenced by U.S. Government Agencies, architects, builders, remodelers and other specifiers.

Cabinets that bear the KCMA seal of certification are recognized as a quality product with the ability to perform after a rigorous battery of tests, simulating years of typical household use. Tests are performed by approved third-party independent laboratories.

American Woodmark Corporation, the manufacturer of allen + roth cabinetry is proud to display the KCMA seal of certification for cabinet construction.

ENVIRONMENTALLY RESPONSIBLE STEWARDSHIP

As a leading U.S. manufacturer of fine cabinetry, American Woodmark Corporation is committed to conducting business in a manner that both protects the environment and safeguards public health and safety. To achieve this end, the company proactively identifies potential environmental risks and monitors compliance with appropriate federal, state, local and internal standards.

The company has received certification by the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program on all products. The certification was awarded based on compliance across a broad range of activity including air quality, product resource management, process resource management, environmental stewardship and community relations.

The company works with all suppliers to encourage sustainable forestry practices. Particle board and plywood are purchased from suppliers that meet the Composite Panel Association requirements for Environmentally Preferable Products including formaldehyde emissions that comply with ANSI Standards.

The company uses leading edge technologies to limit both hazardous and non-hazardous emissions, byproducts, and waste. Ongoing, formal programs identify opportunities for recycling and reusing materials. When waste ultimately requires disposal, steps are taken to minimize the environmental impact.

The American Woodmark Foundation supports local programs serving the community, including activities focused on maintaining the quality of life.

Our company is dedicated to doing our part in the preservation and sustainability of the environment.

FINISHING SYSTEMS

The finishing systems used on our products are designed to ensure the beauty and durability of our cabinetry. State-of-the-art equipment allows precise sanding, filling and finish coverage of each of our products. Our products are extremely resistant to stains and surface damage that can be caused by common household chemicals. Our products exceed KCMA and ANSI standards for resistance to stains like coffee, grape juice and moisture.

CONTINUOUS IMPROVEMENT

In keeping with our policy of continuous improvement, allen+roth cabinetry reserves the right to change specifications in design and materials as conditions require.

CABINET CARE

Remove dust from cabinets frequently with a soft lint-free cloth. The cloth may be slightly dampened with water. Wood cabinet surfaces may be polished once every few months with a high quality, non-oil-based furniture polish. Do not use a paste wax type material. Wax buildup is difficult to remove and will leave a residue that attracts dust and moisture. Polishes containing silicon should not be used. Clean spills immediately. Use a clean cloth and mild soap if necessary. Wipe dry with a clean soft cloth. Do not use detergents, citrus or ammonia based cleaners, steel wool, soap pads or abrasive cleaners on cabinets.

Extra care should be taken that cabinet finishes are not exposed to heat in excess of 200° Fahrenheit. Do not place or mount small appliances beneath wall cabinets. These appliances (such as coffee makers and toasters) can produce excessive heat and moisture, which can damage the finish of cabinets. Do not expose doors or drawer fronts to heat created from self-cleaning ovens or ranges.

ALLOW CABINETS TO AGE BEAUTIFULLY

Our cabinets represent the careful selection of woods. While every effort is made to match woodgrain as closely as possible, no two pieces of wood are exactly alike, even from the same tree. These differences in natural color and grain mean that each piece will respond differently to the finishing materials used. For example, close-grained woods absorb less and will vary in color from more open-grained pieces from the very same tree. It's these variations that contribute to the beauty and distinction of quality wood products. However, exposure to sunlight, smoke and chemicals may cause some materials to fade, darken or vary from their original color over time.

This is why cabinets, doors, drawer fronts and accessories added at a later date may not exactly match cabinets installed now. For the same reasons, door samples or displays may not represent the exact color of cabinets received at the time of shipment. Consumers should also read all cleaning agent instructions carefully before application.

Due to changes that occur from natural and environmental factors a cabinet is exposed to over its lifetime, we cannot be responsible for variations that occur in the finish of wood cabinets as they age.
